NEFAP Board Meeting Summary May 24, 2010

1. Roll call and approval of minutes:

Chair Marlene Moore called the NEFAP Board meeting to order on May 24, 2010 at 1:00pm EST. Attendance is included in Attachment A. There were 10 Board members present on the call. Doug added in later and Scott, Marlene and John had to leave about a half hour early.

The minutes from the May 3rd meeting were reviewed. Jan motioned to approve the minutes and Dane seconded the motion. Keith expressed concern that the minutes were distributed yesterday evening and he had not had an opportunity to adequately review them. The minutes were voted on – there were 9 approvals and one abstention. The minutes will be forwarded for posting to the TNI website.

2. Evaluation SOP

The SOP will be passed on to Policy Committee today. All Board members voted by email and the approval was unanimous.

Motion was made by: Cheryl

Second by: Dane

| NEFAP Board Member | Vote: For, Against, Abstain |
|--|--------------------------------|
| Marlene Moore (Left the call prior to vote.) | For (5/21) |
| Dane Wren | For (5/22) |
| Calista Daigle | For (5/20) |
| Scott Evans | For (5/24) |
| John Moorman | For (5/20) |
| Cheryl Morton | For (5/20) |
| Jan Wilson | For (5/21) |
| Doug Berg | For (5/21) |
| Keith Greenaway | For (5/21) |

| NEFAP Board Member | Vote: For, Against, Abstain |
|-----------------------|--------------------------------|
| Kim Watson | For (5/20) |
| Michael Miller | For (5/21) |
| Brian Conner | For (5/24) |
| Michelle Henderson | For (5/21) |
| Justin B. Brown | For (5/20) |
| Patrick Conlon | For (5/21) |

3. Plans for Washington, DC Meeting

Justin will provide an update to the Board next Wednesday by e-mail. There is a full day to plan. Justin will be looking for input.

4. Schedule for Recognition

Marlene provided a preliminary schedule for recognition:

| Date | Step | |
|---------------------|--|--|
| July to August | Applications made to TNI NEAP Board for review | |
| September 15, 2010 | Application from ABs accepted – Announcement made on TNi website (Other ABs can be added as received, reviewed and accepted) | |
| October 1, 2010 | FSMO applications received by ABs | |
| October to December | Perform witness assessment (evaluators observe AB assessor perform FSMO assessment) | |
| October to December | Perform on-site evaluation or review documentation as per procedure | |
| January 2010 | Announce AB recognition – TNI meeting in January 2011 | |
| On-going | Follow Evaluation SOP for process after recognition | |

Given that this is a new program it is not possible to witness assessments until after the AB begins accepting applications from FSMOs. A preliminary review of the application and supporting documentation would need to occur and then the AB would be OK'd to begin accepting applications and scheduling on-site assessments. In order for the AB to meet their timelines, Marlene is OK with an AB granting accreditation to an FSMO before they receive their final accreditation from TNI. Does the rest of the Board agree? DoD recognized the ABs first and then they could begin accrediting organizations.

Do we need to recognize all the ABs at the same time?

Everyone should review this schedule and consider the conversation above. Comments and opinions should be shared with the entire Board via e-mail. This will need to be finalized at the next meeting.

5. Application

Doug prepared an application and a completeness checklist (see Attachment B). Board members should provide comments by e-mail within the next 2 weeks. An updated version will be distributed prior to the next meeting for finalization.

Doug noted that he started with the NELAP Board application and highlighted the changes he made. In preparing the checklist he considered what the Evaluation Coordinator or Lead Assessor might want to see up front to evaluate whether the applicant has provided the required elements. Doug asked all Board members to review the checklist and consider what they would want an AB to provide and what elements need to be pointed out by providing a reference to show the element is included in the information provided. He asked that everyone look for missing items on the checklist. SOP 10-105 does not go into detail on what needs to be submitted.

6. Certification and Scope

The certificate is being worked on by Brian and should be available soon.

Marlene encouraged everyone to review the document Dave Speis shared at the Chicago meeting: Accreditation Process Policy for Field Sampling and Measurement Organizations. This document is on the NEFAP Board website page and should give everyone some ideas regarding scope of accreditation. This document was originally submitted to the Policy Committee by the Field Activities Committee (FAC), but it was rejected.

To what level of detail should the scope be prepared? Scott and John Moorman felt the initial scope should be broad. Stick to the four media and an "other" category. We are looking at an AB's Scope – not the FSMO's scope that the AB prepares. Brian will add this information to the Certificate he is preparing and keep the scope broad.

The actual scope for an FSMO may be more specific based on the organization's SOPs. If the sampling method requires certain protocols – these protocols should be included in the scope (an example is Florida). This discussion needs to still occur. Does something need to be dictated as to how the AB's prepare the scopes for the FSMOs?

7. AB Evaluation Checklist

Mike needs some assistance in preparing the checklist.

Mike is not including the ISO 17011 language into the checklist he is working on for Volume 2. He has been working under the assumption that the ILAC ABs will have a checklist for the ISO 17011 portion of the audit.

Brian shared that when A2LA prepares a checklist, they take it directly from the standard they are auditing to. This makes it simple to update checklists when standards are updated. They prepare their checklists in Word. If a copy of the checklist containing ISO language is provided to an applicant, the applicant must sign a statement that they own a copy of the ISO Standard in question. This is verified when they have their assessment.

John Moorman commented that he prefers Excel for larger checklists because it allows easy sorting of the information. Ilona noted that the new DRAFT TNI Quality Systems Committee checklist is in Excel.

Brian e-mailed the Board a copy of the checklist he prepared in Word for Volume 1 of the standard. The version he sent does not include the ISO language, but he has that version complete too. The checklist with the ISO language is about 67 pages — without is about 12. An F is placed on each line that came from the TNI Field standard that was not from the ISO language. The Reference Column is for listing where the item can be found in the applicant's quality documentation. Brian is willing to provide the ISO version to the NEFAP Board given they have a legal copy of the ISO language.

Keith, Brian and Doug commented that either format – Word or Excel – would be fine. (*Addition: 5-24-10 Marlene would prefer to provide the checklist in Excel.*)

The members on the call were in agreement that the checklist should be verbatim from the Standard and either format (Word or Excel) would be fine. Mike will talk to Marlene for next steps.

8. SOP 10-104

The dispute SOP has been reviewed by the Policy Committee and comments have been returned to the NEFAP Board. The comments were minor. The comments were forwarded to the Board this morning and Board members asked that they be given some time to review the comments and provide input. Board members were asked to provide comments and suggested wording changes by this Friday, 5-28-10. Jan will take the comments and provide an updated SOP for the Board to review and vote on the following week.

The Policy Committee was complimentary of the efforts the Board has put into the SOPs submitted. The first three have already been forwarded to the TNI Board. It was also suggested the SOP 10-104 and 10-105 be forwarded to the NELAP Board for consideration as they update their dispute and evaluation SOPs.

9. New Items

- Keith commented that many of the documents that are being worked on are being forwarded to Board members with little time for review prior to meetings. In the future, Ilona will send an e-mail a week before each meeting to remind people that documents need to be sent in the next day to give people review time.

10. Next Meeting

The next meeting of the NEFAP Board will be determined by e-mail. Marlene will suggest a few possible dates.

Action Items are included in Attachment C and Attachment D includes a listing of reminders.

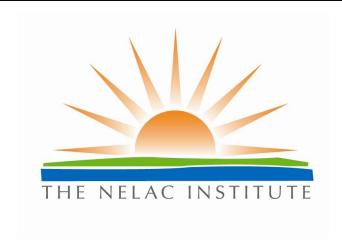

The meeting was adjourned at 2:33 pm EST. (Motion: Mike Second: Brian Unanimously approved.)

Attachment B – DRAFT Application and Checklist

The NELAC Institute

NEFAP Accreditation Body Application

P.O. Box 2439 Weatherford, Texas 76086

Instructions for Completing Application Form and Checklist (Addendum I):

- The NEFAP accreditation body must supply copies of this Application and any supporting documents submitted with this Application to the NEFAP Evaluation Coordinator.
- When supporting documentation is submitted, such as copies of the applicable policy statements, quality manual, standard operating procedures, guidance documents, lists, etc., a clear citation of where specific required information is found in the documents must be provided on the Application Completeness Checklist. This citation must include a reference to the document title or identification, page number and/or section/chapter/line reference, as applicable.
- The applicant accreditation body can submit this application and supporting documents required in this Application for NEFAP recognition electronically or by certified or other traceable means. Electronic transfer of the application and supporting documents is preferred.
