

Field Activities Expert Committee (FAC)

Meeting Summary August 8, 2019

1. Roll call:

Chair, Scott Haas, called the FAC meeting to order on August 8, 2019 at 1pm Eastern in Jacksonville, FL. Attendance is recorded in Attachment A – there were 7 members present. Associates: Bruce Weckworth (by phone).

Meeting minutes are sent to the committee by email. If no comments are received within one week of the email notification, they are considered approved and are posted on the TNI website.

The July meeting was canceled.

2. Standard Update

Scott provided an agenda for the meeting today (Attachment E).

The Committee will be looking at what should be added to the Standard that is value added.

They also need to look at Standard Interpretation Requests (SIRs) and the notes the former FAC wrote for this committee to consider when updating the Standard.

Scott pulled up Power DMS to familiarize the Committee with this powerful tool we will use to update the Standard.

Scott plans to split the standard into sections to make it easier to have multiple people working on it at the same time. Justin Brown liked this idea but noted that it is important that people who didn't work on a section of the Standard still comment on the section.

The group still needs to decide on the format for the outline of changes to share with the public for comment. SSAS has a great document and this will be presented to FAC as a starting point to figure out what to send.

Marlene asked if we can do one volume at a time. Yes.

Scott asked if Environmental should remain in the title? Marlene thinks yes. Others would like to see more markets included. Ilona suggested waiting until we are further

along in the Standard and we decide if we are adding extra modules that are outside of Environmental.

Kirstin Daigle (Chair, NEFAP) commented that the language added in the Intro is too specific. Keep it general.

Outline of Standard:

Preface – things you need to know before you start reading this standard. Helps put it into context.

Forward – Describe ISO, general changes between 2005 and 2017

Introduction – purpose, how the document should be used

1.0 Scope

2.0 Normative References

The Committee worked on language in the Preface, Forward, and Introduction in Section 1 – Scope.

Information Shannon entered into the Standard are things that came from other documents and are examples. These fall under the thought to add more teeth.

Kirstin talked to a couple of people that have their own sampling guides. Take a look at them and see if this sparks some ideas.

It was suggested to look at the 2007 Standard – did we lose anything?

Marlene can look at 2014 Standard
