Note: Highlight indicates voting members

Approve May 2014 Minutes: Voting quorum not present -- hold to approve at next meeting

#### 2. Welcome Nick Evans to the Committee

### 3. Website Update

Dan will send Gen App presentation (from the Louisville meeting) to William for posting on the web. and John will send his as well.

Committee members – change to remove Art, and add Nick Evans.

Migration to new host is underway. TNI email accounts have been transferred. LAMS is now running on the new server. This weekend is scheduled to transfer everything else from the TNI website to the new server.

## 4. Gen App Plan

Plan update is in William's court for when he has time to work on it. The goal is to have something to present at the meeting in August. Target audience is all of the stakeholders. The beta version is targeted to be available shortly after the Washington, DC meeting.

#### 5. Method Compendium Update

Most of the EPA approved water methods for 141, 143, Part-146 have been entered. There are still Rad methods that Dan is working on. Most of the USGS methods are in now and Lachat methods are being added as well. He is hoping to finish up USGS and Lachat and then start on the Hazwaste methods.

There are currently 2280 links methods in the database – approximately half so far. A filter will be added allowing the ability to select Update 4 or Update 5.

## 6. LAMS Update

Fields of Accreditation (FOA) LAMS discussion on the ability to download a complete FOA table by any user – ABs can do it, but no one else. Do we have enough people present to discuss this? Rebecca will seek comments from LABC members and stakeholders on FOA question for discussion at upcoming July meeting. Jerry will draft and send out a questionnaire to accredited laboratories for their input on FOA issue.

## 7. Committee Schedule & Information – August 2014 Wash DC Meeting

Our meeting is Monday morning, 10:30am – 12:00pm. We will be recording the webinar about LAMS during the meeting and will also discuss the Method Compendium.

8. Next Meeting: July 17, 2014; 3pm EST
