

TNI Information Technology Committee Meeting Summary

July 19, 2012

1. Roll Call

Participants	Present
Caldwell, David	X
Clark, Arthur*	X
Daystrom, William	X
DiRienzo, Bob	
Fitzpatrick, Tim	
Friedman, Maria	X
Hickman, Dan	---
Kuhn, John	X
Morgan, Judy	
Parr, Jerry	X
Pierrot, Rebecca	
Shepherd, Mei Beth	---
Starr, Rip	
Varner, Pam	
Ward, Keith	X
Wlodarski, Jan	X

2. Conference Meeting Update

There will be two meetings at the conference: an IT Committee meeting on Thursday and a breakfast meeting on Thursday with the AC too. We should invite Standard Methods, Office of Water, and Drinking Water to Dan's presentation.

3. LAMS Update (from Dan's email of 7/19/12)

LAMS tables-

Analyte – 2557 records

Method – 3706 records

Accredited labs – 1638

FOAs – 237077

There were regular FOA updates by 5 ABS in June and July.

Most of the methods in the MUR have been entered. I am still working on rad and WET methods. I am updating the description for the WET methods to match the PTFOT tables on the web. I expect to have everything completed by the conference as I am making a presentation on the analyte and method codes.

I have had a few minor setbacks trying to identify the proper source for a few of the methods and will generate a list of questions for Lem. I think we will need another clarification memo.

Regardless of the clarifying emails, I am still a bit confused about SM approval dates for editorial changes in 2011.

William has a lot on his plate right now but I hope he will have time to add the new fields (Method Source, Approved Part 136, Approved Part 141) to the method upload and download tables as well as the show method page.

4. Methods-Related Discussions with EPA

No additional discussions with EPA since the last call. More discussions will take place in D.C.

5. Next Meeting

Washington D.C., August 9, 2012; 9 – 10 a.m. The regular conference call on August 16th is cancelled and will pick up in September.
