4. Copyright issues with new standard

Jerry and Carol will ask TNI’s copyright attorney to make a presentation at the San Antonio to answer some of the questions about copyright issues with the new standards. Carol asked for suggestions for questions to give the attorney. Suggested questions included:

• Can assessors use a checklist that includes ISO language from the new standards? The checklist becomes part of the public record and is freely available to the public.
• Deficiencies have to be supported with relevant language from the standard. Can the ISO language be cited in the deficiency report?
• How can copyrighted language be incorporated into state regulations?
• How can state agencies provide regulated entities with unencumbered access to statutes and regulations that include copyrighted language?

5. AB fees

Dan reminded the ABs that the issue of fee assessment to NELAP recognized ABs had been discussed previously and a target date of July 2010 had been established for existing ABs. It was also determined that any new AB applicants after January 2010 would have to pay an application fee. Dan indicated that letters would need to be sent to state agencies soon to advise them of the fee assessment. Dan asked Carol to get the detailed budget from Jerry and to put this issue on the agenda for final discussion in San Antonio. The ABs will check with their agencies to make sure that fee assessment is still viable.
