

**Radiochemistry Expert Committee (REC)
Meeting Summary**

July 22, 2020

1. Roll Call and Minutes:

Robert Aullman, Vice-Chair, called the meeting to order at 1:10 pm Eastern on July 22, 2020 by teleconference. Attendance is recorded in Attachment A – there were 4 members present. Associate members in attendance: Chrystal Sheaff, Carl Kircher, and Mary-Beth Gustafson.

There were not enough members present to do any committee business, so Robert decided to give a brief update and adjourn the meeting.

Meeting minutes are distributed by email for comment/revision for a week and then posted on the TNI website.

2. Committee Update

- The Committee will continue to work on the proposed changes to the Standard at the next meeting.
- The PT Breakout/Work Group is continuing to meet (Keith McCroan, Bob Shannon and Robert Aullman). Robert reached out to several of the waste producers in the country to see what kind profiles they are reporting. It looks like there is a need to expand the Radiochemistry FoPT tables. This will be reported to the Chemistry FoPT Subcommittee.

3. New Business

None.

4. Action Items

A summary of action items can be found in Attachment B.

5. Next Meeting and Close

The next meeting will be August 26, 2020 at 1pm Eastern.

A summary of action items and backburner/reminder items can be found in Attachment B and C.

The meeting was adjourned at 1:15 pm Eastern. (Motion: Amanda Second: Brian. Unanimously approved.)
