

NOTICE OF INTENT TO ESTABLISH OR MODIFY A TNI STANDARD

Expert Committee or group requesting the establishment or change to the Standard	Field Activities Committee	Proposal Date	4/27/2017	CSDEC Approval	5/11/2017
----------------------------------------------------------------------------------	----------------------------	---------------	-----------	----------------	-----------

TNI Volume	Module	Sections(s)
FSMO Vol 1 + 2	N/A	All sections

**Nature of the standard to be established or the change to the existing standard proposed:**  
 Pursuant to the NELAC Institute's SOP2-100 on consensus standard development, notice is hereby given that the Field Activities Expert Committee (FAC) seeks to review and update Volumes 1 and 2 of the Field Sampling and Measurement Organizations (FSMO) standard.  
 Any person objecting and believing there is not a compelling need for the proposed modifications should contact the NELAC Institute Consensus Standards Development Program Administrator, ken.jackson@nelac-institute.org, within 30 days of this notice.

**Justification or need for the standard or the change in the standard:**  
 The Current version was finalized in 2014 and is in need of review and updating to align with the new ISO/IEC 17011 and ISO/IEC 17025 standards that are in the process of being finalized.

**How is the proposal an improvement over the existing standard:**  
 The FAC will review and update the standards to ensure clarity and to bring the standard into alignment with latest versions of ISO/IEC 17011 and ISO/IEC 17025.

<b>Any potential conflicts developed upon development of the standard or the proposed change to the standard?</b>	No
-------------------------------------------------------------------------------------------------------------------	----

<b>Any potential obstacles to implementation by ABs?</b>	No
----------------------------------------------------------	----
