

Notice of Intent to Establish or Modify a TNI Standard

Expert Committee:	Proficiency Testing Expert Committee	Proposal Date:	December 3, 2021	CSDEC Approval Date:	
--------------------------	--------------------------------------	-----------------------	------------------	-----------------------------	--

TNI Volume/Module	Section(s)
V2/M2	

Potentially impacted stakeholders/stakeholder groups:
Laboratories, Accrediting Bodies and Other

Nature of the standard to be established or complete Attachment 1 if change to existing standard:
<p>V2M2 is reaching the 5-year re-evaluation point and has received comments requiring the Proficiency Testing Expert Committee to clarify sections of the Module. While the entire Module will undergo review, the sections of the Module determined to require specific attention are those relating to consistency with ISO/IEC requirements, distinctions between primary and secondary Accreditation Body requirements, and clarification of requirements resulting from proposed changes to V1M1.</p> <p>The revisions will improve the module by resolving previously submitted SIRs, adding clarity, improving useability of the Module by Accrediting Bodies, and harmonizing requirements between all volumes and modules pertaining to proficiency testing.</p> <p>Attachment 1 per SOP 2-100, Rev. 3.4 is not presented at this time as the level of detail of potential changes required in Attachment 1 is not yet available. This information will be supplied upon presentation of the DS summary and justification documentation.</p>

If a new standard, justification or need for the standard:
Not Applicable; not a new standard/module.

Any potential conflicts with the other standards and/or Modules of TNI Standards:
None anticipated but committee will work with other Expert committees, particularly Laboratory Accreditation Body Expert Committee, to ensure no potential conflicts arise in development of the revised module.

Potential economic impact:
No substantial economic impacts anticipated

Other potential suitability issues (enforceability, implementability, auditability):
No substantial issues anticipated
