

## Notice of Intent to Establish or Modify a TNI Standard

<b>Expert Committee:</b>	Proficiency Testing Expert Committee	<b>Proposal Date:</b>	December 3, 2021	<b>CSDEC Approval Date:</b>	
--------------------------	--------------------------------------	-----------------------	------------------	-----------------------------	--

<b>TNI Volume/Module</b>	<b>Section(s)</b>
V4	

<b>Potentially impacted stakeholders/stakeholder groups:</b>
Laboratories, Accrediting Bodies and Other (Proficiency Testing Providers)

<b>Nature of the standard to be established or complete Attachment 1 if change to existing standard:</b>
Changes to V4 are anticipated to maintain consistency with proposed changes to V3. Additionally, V4 is near the 5-year re-evaluation point and the entire Volume will be reviewed for on-going applicability and relevance.  The revisions will improve the Volume by adding clarity, improving useability of the Volume by Accrediting Bodies and harmonizing requirements between all volumes and modules pertaining to proficiency testing.  Attachment 1 per SOP 2-100, Rev. 3.4 is not presented at this time as this level of detail of potential changes required in Attachment 1 is not yet available. This information will be supplied upon presentation of the DS summary and justification documentation.

<b>If a new standard, justification or need for the standard:</b>
Not Applicable; not a new standard/volume.

<b>Any potential conflicts with the other standards and/or Modules of TNI Standards:</b>
None anticipated but committee will work with other Expert committees to ensure no potential conflicts arise in development of the revised Volume.

<b>Potential economic impact:</b>
No substantial economic impacts anticipated

<b>Other potential suitability issues (enforceability, implementability, auditability):</b>
No substantial issues anticipated
